

Cottage Street Roadway and Drainage Improvements Project

Lorusso Corporation of Plainville, MA, through a contract agreement with the Town of Natick, will be performing roadway and drainage improvement work on Cottage Street during this construction season. They are already out on Cottage Street installing signage and Erosion Controls. Digging within the roadway will commence starting next week, April 18th. The limits of work are the Route 27/Cottage Street intersection and Cottage Street from Woodland Street to Everett Street.

During construction, the contractor will do their best to keep Cottage Street accessible to traffic; however, there may be times when delays will occur. Please give yourself extra time when traveling, and if possible, seek alternate routes. The Construction work is scheduled to be completed by Mid November.
