Ms. Loomis said that the language regarding 50% first floor retail had been revised to apply only to Union St and E. Central St. Mr. Glater expressed concern about the potential for commercial development on Grant St. Mr. Landry thought it was unlikely that a property facing Grant St would be developed for retail.

Patrick Moynihan, counsel, spoke in favor of the proposal. He raised concern that the Design Review Board's powers would be expanded to include the new zoning district.

Mr. Nottonson read the public hearing notices for Articles 28 and 29 into the record.

Craig Lizotte, MathWorks, explained the goal of the proposed amendment in terms of growth, the future of the MathWorks Lakeside campus, and flexibility. Part of their current campus is zoned HM-I, part is zoned IN-II, and a newly acquired adjoining property is C-II.

Ms. Loomis summarized the proposed amendment, current zoning, and overlay districts. No change is proposed for the overlay districts. She reviewed the size ranges for a small campus (80,000-200,000 SF) and large campus (>200,000 SF) in HM-I under this proposal.
