

**Town of Natick
Job Description**

Position Title:	Director of Information Technology (IT)	Grade Level:	5
Department	Information Technology	FLSA Status	Exempt
Reports to:	Deputy Town Administrator/ Operations Director		

Statement of Duties: The Director of IT is responsible for providing strategic oversight and direction of the IT Department. The Director of IT is responsible for researching and implementing technological solutions to support Town wide operations. The Director of IT will manage projects, supervise department staff, and advance initiatives of administration. The IT Department support operations Town wide and the Director of IT will ensure collaboration with both Town and School Departments.

Supervision Required: The employee works under the broad and general supervision of the Town Administrator and the Deputy Town Administrator/Operations Director.

Supervisory Responsibility: The Director of IT is responsible for the direct supervision of department staff.

Accountability: This position is highly accountable and incorrect actions or misjudgment may result in monetary loss, missed deadlines, potential injury, as well as legal repercussions, and adverse public relations.

Judgment: Individual judgment and the application of professional knowledge and experience is required in selecting the appropriate practices, procedures, regulations, or guidelines to apply in each case.

Complexity: Management responsibility in the information technology arena requires ingenuity and creativity to keep pace with an ever-changing IT environment. Incumbent must oversee technical work while maintaining working relationships with a diverse group of department heads, boards and committees.

Confidentiality: This classification requires integrity and confidentiality, in a disclosure of daily activities.

Work Environment: Majority of this work is conducted in an office environment; however, it will require visitation to all town facilities for the implementation and maintenance of related equipment.

Nature and Purpose of Contacts: Primary contacts are with the Deputy Town Administrator for Operations, Information Systems Advisory Board, School Director of Technology, Town and School employees, and department heads for the purpose of determining communication and information needs, and in developing appropriate and workable solutions. Additional contacts include vendors and manufacturer's representatives for the purpose of exploring new or improved approaches to information technology development and design.

Town of Natick
Job Description

Occupational Risks: Duties generally do not present occupational risk with only occasional exposure to risk or stress. Minor injury could occur, however, through employee failure to properly follow safety precautions or procedure. Examples of injury include minor bruises from falls, minor cuts or burns, or minor muscular strains from lifting or carrying heavy equipment or materials.

Essential Functions:

The essential functions or duties listed below are intended only as illustrations of the various type of work that may be performed. The omission of specific statements of duties does not exclude them from the position if the work is similar, related, or a logical assignment to the position.

- Administer a comprehensive communication and information technology program for the Town of Natick. Plan, direct, and control information technology programs for the Town of Natick. Coordinate long and short-term strategic planning with Town Officials aimed at standardizing and improving hardware, software and data communications programs in the Town.
- Develop information technology goals and priorities in consultation with the Deputy Town Administrator for Operations and representatives of various Town, Library, and School departments. Assist various Town officials and managers in defining their management information needs, organizing priorities, and identifying the impact of contemplated technology applications on the efficiency and effectiveness of operations. Provide technical advice to all Town managers and elected/appointed officials on a wide variety of issues and problems to meet each department's regulatory, statutory and management requirements.
- Encourage and maintain cooperative planning and working relationships with Town and School departments;
- Prioritize and assign the work of employees; interview, select, orient, and train department personnel; evaluate work performance; and initiate appropriate personnel actions. Develop and oversee the department's capital and operating budgets, and administer expenditures.
- Follow all applicable procurement procedures to acquire hardware, software and communications equipment. Negotiate personal service contracts for consultants; and establish and monitor performance standards for such services.
- Keep abreast of latest developments in technology and management approaches through reading technical publications, participation in seminars and workshops, and contact with other IT & MIS directors.
- Maintain a help desk. The help desk should include a work order request system or similar program.
- Review, update and maintain Town Wide Cyber Incident Response Plan.
- Implement Town wide training programs to educate employees on cyber security, shared software and other applications as appropriate.
