

**Town of Natick
Job Description**

Position Title:	Environmental Health Agent	Grade Level:	3
Department	Public Health	FLSA Status	Exempt
Reports to:	Director of Public Health		

Statement of Duties: The employee enforces a variety of federal, state, and local environmental sanitary and health regulations, state and local permit and licensure requirements, specific legal mandates, and other rules, regulations, by-laws and advisory requirements.

Supervision Required: The employee works under the direction of the Director of Public Health.

Supervisory Responsibility: This normally is not a supervisory position but may be required to direct work assignments to the Sanitarian, consultants and interns or to pass on assignments as directed by the Director of Public.

Accountability: The employee is responsible to carry out the regulations, policies and procedures governed under the Commonwealth of Massachusetts, Town of Natick and the Board of Health; must follow the Code of Ethics and guidelines set under the Conflict of Interest Laws.

Judgment: Most decisions are to be carried out by following public health codes and regulations but the employee may often be required to make a judgment based on best practices and professional judgment when dealing with in-office visitors or during field inspections.

Complexity: The employee must possess knowledge of the pertinent public health laws, codes and regulations, must be familiar with proper procedures and processes of conducting inspections and enforcement procedures when required, possess good writing skills, must have excellent social and communication skills, keep up with the continuous changes in the laws, codes, and regulations, possess good computer skills and have the ability to adapt to any situation and educate constituents of policies and procedures.

Confidentiality: Most of the work produced by the employee is considered public record but on occasion there may be the need to protect the identity of individuals or patients when conducting nuisance, housing complaint investigations, food-borne related investigations or when the need to apply the HIPPPA law with medical information.

Work Environment: Work is performed in many different environments ranging from inside to outside settings including but limited to business establishments to hazardous waste sites, frequently having to traverse rough terrain to carry out inspections. Potential and actual health risks have to be encountered and the employee must utilize all the necessary precautions. The employee may encounter irate or hostile persons and must possess the ability to diffuse the situation while convincing those persons of the need for compliance.
